ADDRESS OF PROBLEM: 2500 block of North Patterson

SITUATION: Phone at work is 831-3000, Ext. 350. She is concerned about two lots which are directly behind her on North Patterson. One lot has a semi-trailer parked on it and she is concerned that children may get into the truck and play. There are also birds flying in and out of it. A privacy fence has been erected on the other lot and she is wanting someone to look at the fence and tell her whether or not it extends the required length; feels it should extend around the corner. She is also concerned about a vehicle parked on this lot marked Brand Horse Battery Company. The vehicle is low to the ground and she is worried that when it rains the battery acid will be washed out onto her property.

of wood. We opened the door of the truck bed and found it to be empty. No further action appears to be needed.

It did appear that someone had backfilled the area. And that they had placed some of the dirt in a storm water detention basin. This matter was referred to Julie Edwards, Drainage Inspector (Ext. 1939), on 6-29-92 at approximately 11:50 A.M.
